Derivan Student is a fast drying, non-toxic and water-based paint with bright, opaque colours that can be used on most porous surfaces, including paper, cardboard, wood, MDF, plaster and canvas.

Use

Derivan Student Acrylic Paints are ideal for a wide range of art and craft applications for the beginner through to the advanced artist or crafter. Whether adding a splash of colour to your craft project, or creating your own masterpiece on canvas, Derivan Student Acrylics have the versatility for a broad range of painting techniques. Safe for use by children 3 years and older, Derivan Student Acrylics are the perfect all rounder art and craft paint for the school or family.

Colour mixing

All the colours may be intermixed to form bright secondary and tertiary colours.

Clean-up

Wash all utensils, brushes and hands with soap and water to clean up.

Removing stains

Suitable clothing should be worn as some staining may occur. We advise to wash stains out immediately with cold water and household soap, taking care not to spread the stain. Dry stains will need to be soaked overnight in lukewarm soapy water. Do not use hot water, chemical solvents or thinners. For more detailed instructions please visit the Derivan website on www.derivan.com.au.

Health & Safety

Derivan Student is a non-toxic water-based acrylic that carries the certification seal of the US-based *Arts and Craft Materials Institute* as safe for use by Artists (AP Label). Derivan Student contains no heavy metals, lead, or toxic solvents. Even though it is non-toxic, it is advisable to keep out of reach of small children as it has very strong binding qualities. For further information, please download the Safety Data Sheet from the health section of our website - www.derivan.com.au.
