Vitrail

*Vitrail colours with a
transparent effect*

Properties:

QUALITY: Transparent, intense and very bright colours. Solvent based, ready to use. Colours can be mixed together. Good lightfastness. Use with the Cerne Relief.

DRYING: 2 hour to the touch , completely dry after 10 hours. Drying times can vary depending on the thickness of the application, and the temperature and humidity of the room where the product is applied.

SURFACES: Glass, polyester, acetate...

THINNER: Odourless mineral spirit or white spirit.

CARING (decorated surfaces): After drying, the colour bear a light wash without soaking. Resistant to glass cleaner. The objects decorated with Vitrail colours should not be considered for practical usage, but only intended for decorative purposes.

TOOLS: Pébéo Cobra deco or Iris brushes.

BRUSH CLEANING: Odourless mineral spirit or white spirit then rinse with soap and water.

NUMBER OF COLOURS: 26 colours.

PACKAGING: 45ml bottle - all colours. 250ml bottle - 16 colours.

Product Usage:

Pébéo's Vitrail colours are applied with a brush to all carefully degreased transparent surfaces: glass, acetate, polyester, plexiglas. The 26 "antique" Vitrail colours are dense and very transparent. The decorated surface has good hardness.

To imitate stained glass, use the Vitrail colours with the Cerne Relief outliners. They are applied directly from the tube with nozzle before applying the Vitrail colours. The Vitrail colours may also be used with the bath technique.

Always clean brushes thoroughly with white spirit or odourless mineral spirit, then rinse with soapy water And they are ideal with the Pébéo Mixed Media techniques **MIXEDMEDIA** by Pébéo. Before using the Gédéo Gazing Resin, it is recommended to apply a coat of Bindex (8 hours drying on completely dry Vitrail colours (72 hours minimum)).

Vitrail Opale: lightfastness (exposed to UV Rays for 2 month 24hr/24hr)

Vitrail*opale*

*Opalescent colours with
a Vitrail effect.*

Propriétés :

Pébéo's Vitrail Opale paint allows for experimentation with opacity and transparency. Easy to use, it is accessible to all for decorating glass, canvas, metal, acetate, wood, mirror...

Vitrail Opale is a range of 10 opalescent solvent-based colours.

QUALITY: Very bright colours with an opalescent effect. Solvent-based and ready-to-use colours

that can be mixed with each other. Can be applied with a brush, dropper or sponge. Good lightfastness.

DRYING: 1 hour to the touch, completely dry after 8 hours. Drying times can vary depending on the

thickness of the application, and the temperature and humidity of the room where the product is applied.

SURFACES: Glass, mirror, polyester, acetate, canvas, wood, metal...

THINNER: Odourless mineral spirit or white spirit.

FINISH: Glossy and glass-like effect.

CARING (decorated surfaces): After drying, the colour bear a light wash without soaking. Resistant to

glass cleaner. The objects decorated with Vitrail colours should not be considered for practical usage,

but only intended for decorative purposes.

Tools: Pébéo's Cobra Deco or Iris brushes, dropper, sponge...

Cleaning of brushes: Odourless Mineral Spirit or white spirit then rinse with soap and water.

NUMBER OF COLOURS: 10 colours.

PACKAGING: 45ml bottle - all colours.

Applications:

Pébéo's Vitrail Opale colours can be applied with a brush, a dropper or a sponge on all carefully degreased surfaces. Mix the colours thoroughly with a stick prior to use. They can be used with Vitrail Transparent colours to create contrasts between transparency and opacity, and also with the Vitrail Cerne Relief.

Vitrail Opale colours may also be used with the bath technique and they are ideal with the Pébéo **MIXED MEDIA** techniques. Before using the Gédéo Gazing Resin, it is recommended to apply a coat of Bindex (8 hours drying on completely dry Vitrail Opal colours (72 hours minimum)).
