

### Lightfast Rating System

Lightfastness is the ability of a color to retain its original characteristics and/or withstand the effects of light over time. Prismacolor tested lightfastness in accordance with ASTM D6901-06, and has established this lightfastness rating:

I - Excellent II - Very Good III - Good IV - Fair V - Poor

Product Color   
 Color Name **Violet**  
 Pencil Number **PC932** • 3360  
 Art Stix Number **AS1932** • 77184  
 Item Number\*

\*Only products with an item number are sold individually
